

MMD V2 - Screen Inventory

1. Overview

This document defines every screen in the platform.

For every screen we define:

- Route
- Purpose
- User Roles
- Components
- APIs
- Database Entities
- Actions

AUTHENTICATION

Login Screen

Route:

/login

Purpose:

Authenticate users.

Roles:

All Users

Components:

- Email
- Password
- Login Button
- Forgot Password

APIs:

POST /api/auth/login

Entities:

users

Actions:

- Login
-

Forgot Password

Route:

/forgot-password

Purpose:

Reset password.

Roles:

All Users

Entities:

users

Actions:

- Send Reset Link
-

DASHBOARD

Executive Dashboard

Route:

/dashboard

Purpose:

Business overview.

Roles:

SUPER_ADMIN TENANT_OWNER ADMIN

Components:

- KPI Cards
- Charts
- Reports

APIs:

GET /api/dashboard

Entities:

companies leads requirements candidates placements

Actions:

- View Metrics

Recruiter Dashboard

Route:

/dashboard/recruiter

Purpose:

Recruiter performance.

Roles:

RECRUITER

Entities:

requirements candidates applications

Actions:

- View Assigned Work
-

CRM

Companies List

Route:

/companies

Purpose:

Manage client companies.

Roles:

ADMIN MANAGER SCRAPER

Entities:

companies

Actions:

- Search
 - Create
 - Edit
 - Archive
-

Company Details

Route:

/companies/[id]

Purpose:

View company.

Entities:

companies contacts leads requirements

Actions:

- View
- Edit

Create Company

Route:

/companies/new

Purpose:

Add company.

Entities:

companies

Actions:

- Create

Contacts List

Route:

/contacts

Purpose:

Manage contacts.

Entities:

contacts

Actions:

- Create
 - Edit
 - Delete
-

Contact Details

Route:

/contacts/[id]

Purpose:

View contact.

Entities:

contacts

Leads List

Route:

/leads

Purpose:

Manage leads.

Entities:

leads

Actions:

- Create
 - Assign
 - Convert
-

Lead Details

Route:

/leads/[id]

Purpose:

View lead.

Entities:

leads

Actions:

- Update
 - Convert
-

ATS

Requirements List

Route:

/requirements

Purpose:

Manage requirements.

Entities:

requirements

Actions:

- Create
 - Assign Recruiters
 - Close
-

Requirement Details

Route:

/requirements/[id]

Entities:

requirements applications

Actions:

- View Pipeline
-

Candidates List

Route:

/candidates

Purpose:

Candidate database.

Entities:

candidates

Actions:

- Search
 - Import
 - Export
-

Candidate Details

Route:

/candidates/[id]

Entities:

candidates documents applications

Actions:

- Resume Upload
 - Resume Download
-

Candidate Create

Route:

/candidates/new

Actions:

- Create Candidate
-

Applications List

Route:

/applications

Entities:

applications

Actions:

- Manage Pipeline
-

Interviews List

Route:

/interviews

Entities:

interviews

Actions:

- Schedule
 - Reschedule
 - Cancel
-

Interview Details

Route:

/interviews/[id]

Entities:

interviews

Actions:

- Feedback
-

OPERATIONS

Placements List

Route:

/placements

Entities:

placements

Actions:

- Create
 - Edit
-

Placement Details

Route:

/placements/[id]

Entities:

placements

Actions:

- Generate Invoice
-

Timesheets

Route:

/timesheets

Entities:

timesheets

Actions:

- Submit
 - Approve
-

Timesheet Details

Route:

/timesheets/[id]

Entities:

timesheets

Actions:

- Approve

- Reject
-

Invoices

Route:

/invoices

Entities:

invoices

Actions:

- Generate
 - Send
-

Invoice Details

Route:

/invoices/[id]

Entities:

invoices

Actions:

- Mark Paid
-

AUTOMATION

Templates

Route:

/templates

Entities:

templates

Actions:

- Create
 - Edit
 - Clone
-

Template Details

Route:

/templates/[id]

Entities:

templates

Actions:

- Update
-

Workflows

Route:

/workflows

Entities:

workflows

Actions:

- Create Automation
-

Workflow Builder

Route:

/workflows/[id]

Entities:

workflows

Actions:

- Configure Steps
-

Notifications

Route:

/notifications

Entities:

notifications

Actions:

- View
 - Archive
-

ANALYTICS

Reports

Route:

/reports

Entities:

reports

Actions:

- Export

Recruiter Reports

Route:

/reports/recruiters

Entities:

recruiters

Actions:

- Analyze Performance
-

Placement Reports

Route:

/reports/placements

Entities:

placements

Actions:

- Revenue Analysis
-

Revenue Reports

Route:

/reports/revenue

Entities:

invoices placements

Actions:

- Financial Tracking

ADMINISTRATION

Users

Route:

/users

Entities:

users

Actions:

- Create
- Edit
- Disable

User Details

Route:

/users/[id]

Entities:

users

Actions:

- Reset Password

Roles

Route:

/roles

Entities:

roles

Actions:

- Assign Permissions
-

Audit Logs

Route:

/audit-logs

Entities:

audit_logs

Actions:

- Search
-

API Keys

Route:

/api-keys

Entities:

api_keys

Actions:

- Create
 - Revoke
-

Webhooks

Route:

/webhooks

Entities:

webhooks

Actions:

- Create
- Retry

SETTINGS

Organization Settings

Route:

/settings/organization

Entities:

tenant_settings

Actions:

- Update

Branding

Route:

/settings/branding

Entities:

branding

Actions:

- Upload Logo
-

Preferences

Route:

/settings/preferences

Entities:

preferences

Actions:

- Configure
-

FUTURE MODULES

Client Portal

Route:

/portal/client

Candidate Portal

Route:

/portal/candidate

Job Board

Route:

/jobs

AI Assistant

Route:

TOTAL SCREEN COUNT

Core Screens: ~45+

Future Screens: ~15+

Expected Total: 60–70 Screens
