

MMD V2 - Product Requirements Document (PRD)

1. Executive Summary

MMD V2 is a White Label SaaS platform designed for Recruitment Agencies, Staffing Companies, HR Consultancies, and Talent Acquisition Teams.

The platform aims to centralize recruitment operations, automate repetitive tasks, improve recruiter productivity, provide real-time reporting, and eliminate dependency on spreadsheets, disconnected tools, and manual workflows.

The system will support multiple organizations (tenants) under a single platform while allowing complete branding customization for each customer.

2. Vision

To become a complete Recruitment Operations Platform that helps staffing companies manage their entire recruitment lifecycle from lead acquisition to placement and invoicing through a single unified system.

3. Mission

Provide recruitment companies with a scalable, automated, secure, and customizable platform that increases recruiter productivity, reduces operational overhead, and improves placement success rates.

4. Problem Statement

Most recruitment companies currently use:

- Excel Sheets
- Google Sheets
- WhatsApp
- Email
- Separate ATS tools
- Separate HRMS tools
- Manual reporting

This creates:

- Duplicate work

- Data inconsistency
- Lack of visibility
- Poor recruiter tracking
- Difficult reporting
- Inefficient operations

MMD V2 solves these problems through a centralized recruitment operations platform.

5. Target Customers

Primary Customers

- Recruitment Agencies
- Staffing Companies
- HR Consultancies
- RPO Providers

Secondary Customers

- Corporate Talent Acquisition Teams
 - Placement Cells
 - Executive Search Firms
-

6. Business Goals
