

Design Philosophy

Your current platform likely has inconsistent screens.

V2 should follow:

One Design System

One Table System

One Form System

One Layout System

Layout

App Layout

Header

Sidebar

Content

Footer

Dashboard Layout

KPI Cards

Charts

Recent Activity

Quick Actions

Components

Tables

Single reusable table.

Features:

Search

Filter

Sort
Pagination
Export
Column Visibility
Bulk Actions

Never create custom tables per module.

Forms

Single reusable form system.

Use:

React Hook Form

+

Zod

Structure:

General Info

Business Info

Notes

Attachments

Detail Page

Every module follows:

Header

Overview Tab

Activity Tab

Documents Tab

Audit Tab

Status Badges

Standardize:

Active → Green

Inactive → Gray

Pending → Yellow

Failed → Red

Success → Green

KPI Cards

Standard component:

Title

Value

Trend

Icon

Examples:

Total Leads

Total Requirements

Total Candidates

Placements

Revenue

Modal Standards

Only use modals for:

Quick Create

Confirmation

Small Forms

Never place complex workflows inside modals.

Page Standards

Every page:

Title

Breadcrumb

Actions

Filters

Content

Pagination

Theme System

White Label Ready

Variables:

--primary

--secondary

--background

--foreground

--success

--warning

--danger

Tenant branding updates these values.
